GAP Protection Program

Protect Your Truck And Your Wallet

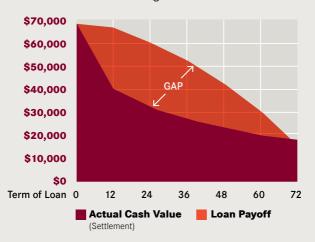

Did you know that if your vehicle is stolen or declared a total loss that you may still be responsible for paying off a portion of the vehicle finance contract?

Many people owe more on their finance contract than their insurance company will pay in the event of total loss. GAP is an amendment to a vehicle finance contract that waives a portion or all of what you owe on the finance contract after an insurance settlement is paid for the total loss of a vehicle. GAP will also pay for your insurance deductible (where permitted by state).

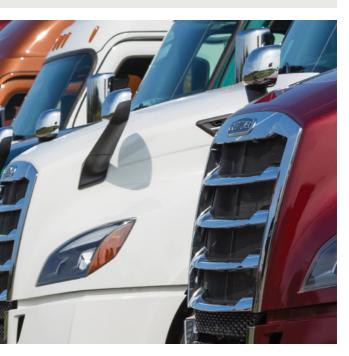

Always Be Prepared

You may think it won't happen to you, but the theft or total loss of a vehicle can take you by surprise. The surprise can be twice as unpleasant if your primary insurance carrier's settlement is less than the amount needed to pay off your finance contract's outstanding balance.

Graph is for informational purposes only. There may be portions of the finance contract for which you remain responsible. See your GAP Program - Deficiency Waiver Agreement for details. GAP/GAPlus protection may not be available in all states. Please contact your dealer for details.
